FRUITS & VEGETABLES**

The average American uses 80 to 100 gallons of water a day. Incorporate these small changes in your lifestyle to make a big impact on your water use:

- A typical shower can use 5 to 10 gallons of water per minute. Reduce your time spent in the shower and aim for a maximum of five minutes.
- Refrain from using the dishwasher and laundry machine until you have a full load. Not only does this help save water but energy, too.
- Turning off the water while brushing your teeth can save up to 8 gallons of water per day.

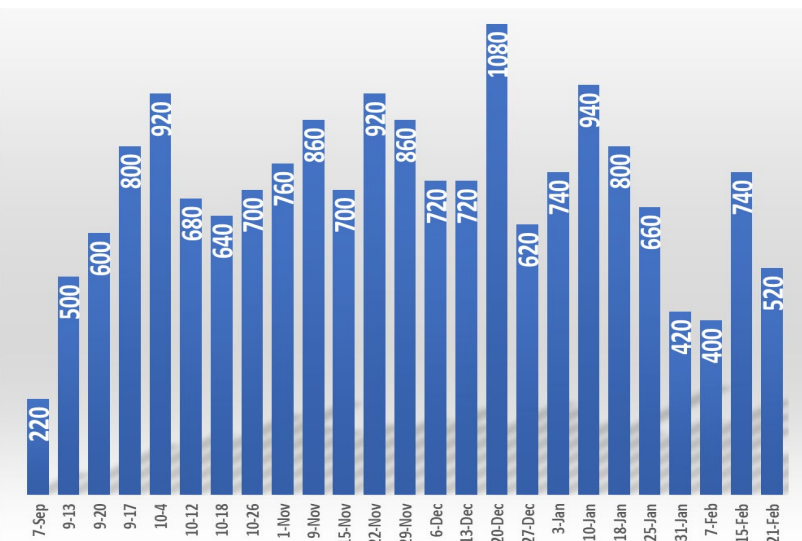

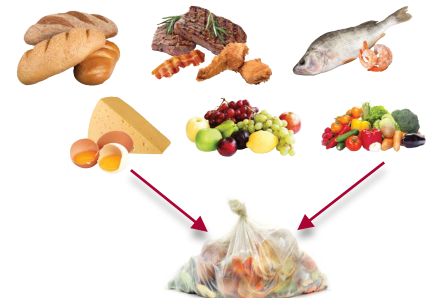

## COMMUNITY FOOD WASTE DROP-OFF

We are now all required to handle food waste differently. California Senate Bill 1383 mandates that we decrease the amount of food waste that goes to the landfill.

**Do I need a bag?** Yes, you will need to put the food in a bag before you drop it in the bin. Please do not throw unbagged food in the bin.

**What are the hours?** For the convenience of our residents the food waste drop off will be available 7 days a week, 24 hours a day.

**Where do I bring my food waste?** A food waste bin is located at the north end of the parking lot at the Community Center - 26540 Vista Rd.

The Community Food Waste Drop off program is off to a great start! Your participation helps the District meet State-mandated diversion requirements without adding a costly third barrel to your service. Since the program began the community has recycled over 14,000 pounds of food waste! Keep up the great work. **Thank you** for helping with this program. Please call 760-951-0006 x224 if you have any questions about the program. [www.helendalecsd.org](http://www.helendalecsd.org) for more info.
