7.	Discussion and Possible Action Regarding District Electronic Sign Policy and Placement of Signage on District Property  Discussion: The Board has been asked to review the current signage policy, which governs the use and messaging of the District's electronic sign. The sign was originally installed by Quiel Signs in 2013 at a cost of \$26,515.68 and has not required maintenance since its installation. However, given the advancements in display technology—including higher resolution and improved graphics—an upgrade or replacement may be necessary in the future to maintain visual quality and functionality. The existing policy, adopted in 2014 and revised in 2018, outlines the framework for sign messaging.							

It specifies who is authorized to approve messages, sets content guidelines, and establishes a hierarchy for message types to ensure appropriate prioritization. Staff are now seeking input from the Board on potential modifications to this policy to better align with current needs and technological capabilities. The Board discussed use of the sign, Legal Counsel recommended not allowing businesses

Vice President Cardenas made the motion to accept the Directors' expense reports.

8. Discussion and Possible Action Regarding Water Pipeline for Treatment and Blending

The State Water Resources Control Board (SWRCB) has proposed a new Maximum Contaminant Level (MCL) for manganese, which will be discussed at their October 7th board meeting. The proposed notification level is 0.05 mg/L and the response level is 0.20 mg/L. Manganese levels at Well 13 range from 0.11 mg/L to 0.19 mg/L. SWRCB has also proposed reclassifying manganese from a Secondary Maximum Contaminant Level (SMCL) to an MCL. The district will still be required to remediate the manganese.

**Motion:** Vice President Cardenas made the motion to direct Staff to proceed with seeking engineer services for pipeline project.

**9.** Discussion Only Regarding Review of Resolution 2012-06: A Resolution of the Board of Directors of the Helendale Community Services District Establishing a Policy for District Reserves

**Discussion:** The California Constitution Article XIII B says that government entities may create funds for contingencies, emergencies, unemployment, reserves, retirement, sinking funds, or similar purposes if deemed reasonable. The 2000 Little Hoover Commission Report was critical of California's special districts, particularly in their management of reserve funds. It highlighted a lack of clear guidelines, limited visibility into financial information, and overall transparency issues. The report emphasized the need for the development of formal reserve policies to ensure accountability and proper financial stewardship. These concerns became more pressing in 2012 when the state faced a fiscal crisis and considered raiding the reserves held by special districts, underscoring the vulnerability of these funds without clear protections.

The overarching intent of reserve funds is to provide sufficient financial resources to support both short-term and long-term planning, such as a five-year Capital Improvement Plan. Reserves also serve to stabilize rates, maintain financial stability, and promote transparency to the public. There are two basic types of reserve funds: restricted reserves, which are earmarked for specific purposes defined by external authorities like the constitution or granting entities, and unrestricted reserves, which encompass all other funds not subject to such constraints. Among the most common reserve types are operating reserves, capital reserves aligned with long-term infrastructure plans, and emergency reserves. Policies governing these reserves typically establish target levels to guide financial planning and ensure fiscal responsibility.

Discussion Only Regarding Water Usage for Water Year 2024/2025

#### STAFF RECOMMENDATION:

None.

#### STAFF REPORT:

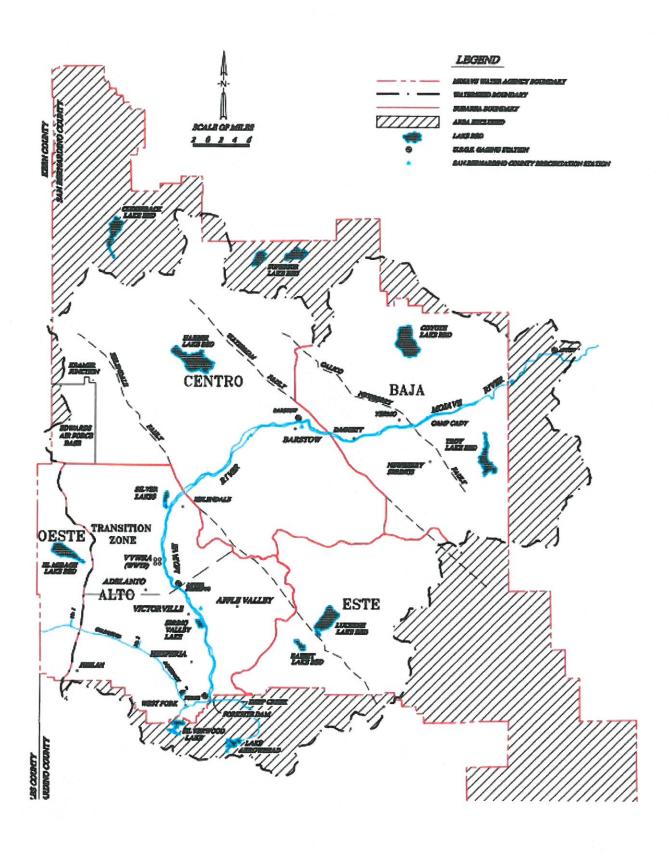

Each year staff provides an update to the Board at the end of the water year which begins October 1 of each year and ends September 30<sup>th</sup>. The District has been very aggressive over the past several years in purchasing water rights as they become available. Most recently the District was able be secure 291 acre-feet of water rights in the Alto subarea. Last year we purchased 50 acrefeet in the Centro subarea.

As ramp downs and growth have occurred there are fewer water rights transactions available each year. For the upcoming year the judge, who makes the final determination on water rights each year, has left the prior ramp down in place that allows the District to pump 50.4% of its Base Annual Production (BAP) water rights.

The District extracts water in the Alto subarea which includes the majority of the Victor Valley from Apple Valley to West Victorville and Adelanto. More specifically, the District pumps from an area known as the Alto Transition Zone. Fortunately, this area is of critical importance to the water balance between Alto proper and the Centro sub area and as such is watched closely by Watermaster staff and the assigned judge. Victor Valley Wastewater Reclamation Authority (VVWRA) discharges over 13,000 acre-feet of water to the Transition Zone each year which helps maintain the health of this area. This supply is critically important to long-term sustainability for us as this contribution to the river provides direct recharge to the aquifer from which we extract our water.

A portion of the District's boundary is in the Centro Sub Area, including the entirety of the newly annexed area. While the District owns 349 acre-feet of water rights in the Centro Sub Area, it does not have wells in that area. This water is used for meeting a make-up obligation to Centro as required in the judgment. Perhaps as the area grows there may be the need to expand the District's infrastructure to that area.

Following is a graphic of the sub areas.

Water rights are bought in sold in a unit known as the Base Annual Production (BAP) Allowance. That usage is reduced or "ramped down" each year depending upon a complicated water calculation completed by the Watermaster's engineer. The purpose of ramp down is to bring production into line with the sustainable yield of the basin. The current judge who oversees the Adjudication takes a hard line on the rules of the judgement and has regularly over-ruled the Watermaster Engineer's recommendation.

For WY 24/25, the District owned 4157 acre-feet of BAP and with the ramp down at 50.4% can only pump up to 2096 without having to buy more water. This past water-year, the District pumped 1539 acre-feet (AF) of water leaving 601 acre-feet remaining. Pumping was up slightly from the prior year of 1495 AF. The District provided approximately 4.4 acre-feet of water to the Silver Lakes Association as emergency augmentation for the lakes during this past summer compared to the previous year during which we provided 31 acre-feet.

The District will have an estimated 601 acre-feet of water (pending verification) to lease to the City of Victorville at approximately \$305,608.50 (based upon an estimated amount of \$508.50/AF). Watermaster adopted a not-to-exceed amount of \$624/AF for the 2024/25 Water year that will be approved by February of 2026. Typically, the amount is less than the not-to-exceed amount. The water production must go through a verification process with Watermaster Staff and the final production amount will be confirmed by February 2026. If the District elects, it could hold back 15% of the available water to sell to another party or bank as carryover water for the current water year. This would equal approximately 90 acre-feet of water. The District is in year three of a five-year agreement to lease carryover water to the City of Victorville. This has been a mutually beneficial arrangement. There are two more years left on the agreement.

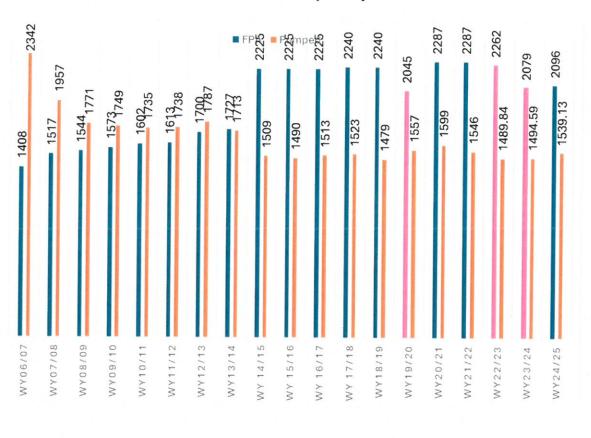

Following is a graph showing the available free production allowance each year and the annual production. In WY06/07 when the District assumed operations from County, water production far exceeded the available water rights owned by the District. The \$4 million dollar acquisition in 2014 has served to provide relief to the District from a shrinking water market with minimal purchase transactions occurring. As noted on the graph, production over time has reduced and the District has enjoyed a healthy surplus of water rights over production demands since the 2014 purchase. These rights have been leased every year to offset the debt service for the purchase.

Discussion and Possible Action Regarding 2026 Concert Series and Beer Booth

#### STAFF RECOMMENDATION

Staff seeks input from the Board regarding this item.

#### **Staff Report**

With the concert series recently ended, Staff felt it would be an appropriate time to review the season with the Board. The October concert was added as the public safety event this year. Due to the weather, it was more lightly attended than previous concerts. Staff wanted direction from the Board regarding any modifications the Board would like to make for the 2026 concert series. Currently we have the same format with the first concert in May and the last concert in October.

As we had seen in years past with the Mojave Trail Days event, October can be beautiful or not so nice. Does the Board wish to have an October concert in 2026 and if so, do you want to have the public safety emphasis again?

The second discussion under this item relates to the Lions Club's use of the Snack Shack for a beer booth. As a local non-profit they were invited to participate when we first began the concerts to host a beer garden. This was similar to any of the food vendors. Originally they set up the beer booth in the first pavilion that was cordoned off and patrons would enter the beer garden to purchase their libation. Due to inclement weather, extremes winds primarily, allowed them to use the Snack Shack for the past two seasons.

Because the use is occupying the Snack Shack and not stand-alone booth like other vendors, Staff believes it would be important to formalize the use of the Snack Shack along with the roles and responsibilities related thereto. Because it is for temporary and occasional use, a Use Agreement may be applicable to this application.

Staff seeks direction from the Board regarding this matter.

Discussion and Possible Action Regarding Mojave Desert Land Trust Short-Term

Management Agreement

#### STAFF RECOMMENDATION

Staff seeks input from the Board regarding this item.

#### STAFF REPORT:

The District entered into a Management agreement with the Mojave Desert Land Trust on February 28, 2019, when the property changed hands from the Western Rivers Conservancy. The role of the District has been to collect the rent, assist with contractors and make minor repairs as needed. In exchange for this oversight and support the District is paid \$150 per month. The MDLT account that the District maintains has \$7,003 to cover any expenses and repairs necessary. Currently, the well is out for the property and staff is hauling water to fill the tank once per week. This cost will be charged back to the MDLT account.

Staff feels that it would be in the best interest of the District to terminate the agreement in an effort to preserve staff resources for district-related obligations. Management's recommendation is to make the termination effective January 1, 2026, to allow for sufficient time for the MDLT to transition to full management of the property. Section 2(c) of the agreement requires a 30-day notification period for termination without cause.

# **Insurance Requirements**

# Policies of insurance to be maintained by MDLT:

MDLT shall procure and maintain during the term of this Agreement and any extensions thereof such policies of insurance as will protect it and HCSD in such a manner and in such amounts as set forth below. The premiums for such insurance coverage shall be paid by MDLT. The failure to comply with these insurance requirements may constitute a material breach of this Agreement at the sole discretion of HCSD.

- (1) <u>Certificates of Insurance</u>. No later than ten (10) calendar days after execution of this Agreement, MDLT shall furnish HCSD with Certificates of Insurance and endorsements verifying the insurance coverage required by this Agreement is in full force and effect. HCSD reserves the right to require complete and accurate copies of all insurance policies required under this Agreement.
- (2) <u>Required Provisions</u>. The insurance policies required by this Agreement shall include the following provisions or have them incorporated by endorsement(s):
- (i) <u>Primary Coverage</u>. The insurance policies provided by MDLT shall be primary insurance and any self-insured retention and/or insurance carried by or available to HCSD or its employees shall be excess and non-contributory coverage so that any self-insured retention and/or insurance carried by or available to HCSD shall not contribute to any loss or expense under MDLT's insurance.
- (ii) <u>Additional Insured</u>. The policies of insurance provided by MDLT, except Workers' Compensation, shall include as additional insureds: HCSD, its directors, officers, employees, and agents when acting in their capacity as such in conjunction with the performance of this Agreement. - (iv) <u>Waiver of Subrogation</u>. The insurance policies provided by MDLT shall (1) contain a waiver of subrogation against HCSD, its directors, officers, employees and agents for any claims arising out of this Agreement, or (2) allow MDLT to waive subrogation, in writing, before any loss, in which case this provision of the Agreement shall be deemed to be MDLT's written waiver of subrogation against HCSD for any and all losses covered by any and all insurance policies required under this Agreement.

- (v) <u>Claim Reporting</u>. MDLT shall not fail to comply with the claim reporting provisions or cause any breach of a policy condition or warranty of the insurance policies required by this Agreement that would affect the coverage afforded under the policies to HCSD.
- (vi) <u>Deductible/Retention</u>. If the insurance policies provided by MDLT contain deductibles or self-insured retentions, any such deductible or self-insured retention shall not be applicable with respect to the coverage provided to HCSD under such policies. MDLT shall be solely responsible for any such deductible or self-insured retention and HCSD, in its sole discretion, may require MDLT to secure the payment of any such deductible or self-insured retention by a surety bond or an irrevocable and unconditional letter of credit.
- (vii) <u>Sub-Contractors</u>. MDLT shall include all sub-contractors as additional insureds under the insurance policies required by this Agreement to the same extent as HCSD or shall furnish separate certificates of insurance and policy endorsements for each sub-contractor verifying that the insurance for each sub-contractor complies with the same insurance requirements applicable to MDLT under this Agreement.
- (3) <u>Insurance Company Requirements</u>. MDLT shall provide insurance coverage through insurers that have at least an "A" Financial Strength Rating and a "VII" Financial Size Category in accordance with the current ratings by the A. M. Even if MDLT contends that it has no employees, MDLT shall obtain a policy to cover its potential exposure on a payroll basis of "if any" for the workers' classification applicable to MDLT's obligations under this Agreement.
- (ii) General Liability. MDLT shall maintain Comprehensive General Liability insurance with a combined single limit of not less than \$1,000,000 per occurrence or claim and \$2,000,000 aggregate. The policy shall include, but not be limited to, coverage for bodily injury, property damage, fire legal liability, personal injury, products, completed operations and contractual to cover, but not be limited to, the liability assumed under the indemnification provisions of this Agreement. In the event the Comprehensive General Liability insurance policy is written on a "claims made" basis, coverage shall extend for two years after expiration or termination of this Agreement.

- (iii) <u>Automobile Liability</u>. MDLT shall maintain Commercial Automobile Liability insurance with a combined single limit for bodily injury and property damage of not less than \$2,000,000 each occurrence for any owned, hired, or non-owned vehicles.
